

## Turbo-Clean T-TCL-120 Reversible Flow Filtration

## Turbo-Separator

Suitable for separating carbide particles from low viscosity grinding oil.

### » Technical information

T-TCL120	
Flowrate	1 to 120 l/min
Medium	Grinding oil
Separating particles	Carbide
PH	6.5 to 9.5
Temperature	60° C
Quality of cleanliness	2- 5 micron
Noise emission	< 70 dBa possible
Sludge conditioning	with centrifuge
Liquid return	with supply pump
Controlpanel	Included
Inlet height	175 mm
Dimension	1250 x 1600 x 1800 mm
Weight	650 kg
Options	Supply pump(s) per request Chiller / Heating System / Air cleaner Modular designed system for up to 960 LPM Available for single machine supply, group supply or central system
