

Turbo-Clean T-TCL Reversible Flow Filtration

Turbo-Separator

Suitable for separating carbide particles from low viscosity grinding oil.

» Technical information

T-TCL	
Flowrate	1 to 960 l/min
Medium	Medium Grinding oil
Separating particles	Carbide
PH	6.5 to 9.5
Temperature	60° C
Quality of cleanliness	2- 5 micron
Noise emission	< 70 dBA possible
Sludge conditioning	with centrifuge
Liquid return	with supply pump
Controlpanel	Included
Inlet height	175 mm
Options	Supply pump(s) per request Chiller / Heating System / Air cleaner Modular designed system Available for single machine supply, group supply or central system
